P R E F A C E.

BEING rather late in beginning to compile this Directory, we have to apologise for its lateness in publication. While endeavouring to make it as complete as possible, still we are sensible that, like all other books of a similar nature, it is not perfect. Three important advantages can be claimed for it, however, over any of its predecessors—1st, The very fine Map of the District, specially prepared for us by Messrs. Bartholomew, of Edinburgh; 2nd, The price is such as to bring it within the reach of all, and attain for it an amount of popularity; and 3rd, The quality of paper is superior to any Directory ever published.

Being published principally by subscription, it may not be had a few months hence from the booksellers, as we do not print a very large number beyond the subscribed list, free copies, &c. Parties, therefore, wishing copies, who have not subscribed, should apply at once. Next year, if no obstacle comes in the way, we will begin to compile immediately after the May term, and can promise, from our experience this year, very considerable improvement, both in size and matter.

Suggestions as to any alterations, &c., will be thankfully received by the Publishers.
